About me

Aspiring Software Developer with practical internship experience in developing and maintaining software applications and information systems. Experienced in API development, frontend and backend troubleshooting, delivering reliable software solutions with a focus on performance and code quality.

Experience

Full stack Developer Internship

Jan 2025 - Apr 2025

Nexter Digital and Solution Co., Ltd. (Q-CHANG Business)

Gateway Bangsue Floor 6 No. 162/1-2, 168/10 Pracharat 2 Road, Bangsue, Bankok 10800

- **Contributed** to an agile, sprint-based development team by maintaining and enhancing a production web application.
- **Resolved** frontend and backend issues to improve application stability and support feature delivery.
- **Developed** and tested RESTful APIs while integrating database data into frontend functionality.
- **Quickly learned** an existing codebase and collaborated with senior developers to complete sprint tasks on schedule.

Intern - Software Developer

Apr 2025 - Oct 2025

Western Digital Storage Technologies (Thailand) Ltd.

304 Industrial Park, 203-205, Tha Tum, Si Maha Phot, Pranchinburi 25140

- **Built** a real-time machine monitoring web application from scratch to reduce manual reporting.
- **Designed** the system architecture and integrated PLC data into a real-time web application.
- **Implemented** CI/CD and deployed the application.
- **Reduced** human error and improved maintenance efficiency through real-time monitoring.

Education

IoT and Information Engineering and Physics Science (Dual Degree)

King Mongkut's Institute of Technology Ladkrabang

First Honor Degree GPA 3.55

2022 - 2026

Skills

Programming & Web

Python, JavaScript, SQL, HTML, XML, CSS, React, Tailwind, NodeJS, RESTful APIs

Database & Tools

PostgreSQL, MongoDB, Redis, Git, GitHub, Bitbucket, Postman

Core Skills

Systems Integration, Debugging, Data Structures

Soft Skills

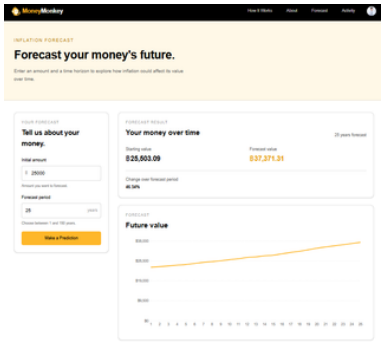

Communication, Teamwork, Problem-solving

Languages

- Thai Native
- English B1 (**TOEIC 565**)

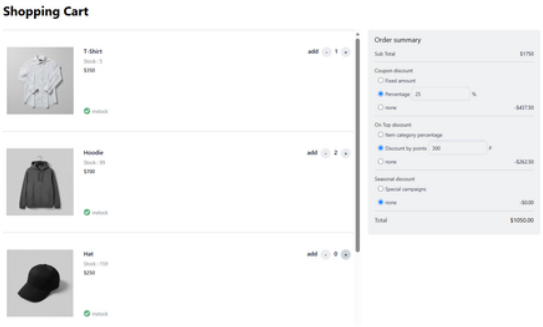

Projects

- **MoneyMonkey** Precision Finance with Cutting-Edge AI Website
  https://moneymonkey.trade/

Built an AI-powered personal finance web application in a Scrum team, gaining experience in sprint planning, task collaboration, communication, and AI integration.

- **Shopping Cart Oder Website**
  https://shop.moneymonkey.trade/

Built a web application that calculates shopping cart totals by automatically applying multiple discount types, strengthening my skills in pricing logic and responsive web design.

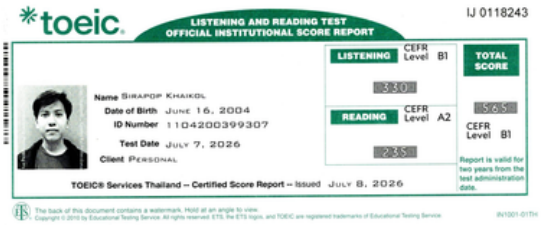

- **Personal Portfolio Website**
  https://sirapopkhaikol-dev.github.io/sirapop-portfolio.github.io/

A responsive portfolio website that showcases my projects, technical skills, and experience, improving my UI design and responsive web development skills.

Certifications

- **TOEIC** Score Report B1 (**565**)

- My Order Cloud Hero #2 (Google Cloud Skills Boost badge)

Gained foundational knowledge of cloud architecture, big data, machine learning, and cloud-native application development.

Activity

- Staff KMITL Innovation Expo 2025

Assisted in managing the exhibition and developed strong teamwork and communication abilities.
